

INTERIM BUSINESS SUMMARY

(Year ending March 31, 2009)

Nippon Chemiphar Co., Ltd. (4539)

October 30 2008

1. Highlights

1. Sales of core products (Uralyt, Soleton, Calvan) slipped 9.1% YOY due to the latest NHI price revision. However, consolidated sales rose 5.8% YOY, reflecting the 18.8% increase in generic sales owing to brisk sales at DPC hospitals and pharmacy chains.
2. Operating income slid 85.2% YOY due to a 5.1 point hike in cost of sales, resulting from:
 - (a) The impact of the NHI's price revision in April;
 - (b) A decline in sales of core products, which have a higher gross margin than generics;
 - (c) A 5.1 point jump in cost of sales, due to the higher ratio of generics sales to total sales.
3. Chemiphar forecasts full-year sales of ¥22,580 million (up 7.9% YOY), as it expects sales of new products launched in July and November to grow, and plans to further boost the promotion of its three core products.
4. Chemiphar plans to cut SG&A expenses. However, it predicts little change in cost of sales, given that the expected greater sales of generics to DPC hospitals will trim the operating income to ¥530 million (down 54.7% YOY).

2. Consolidated Sales and Income

	Interim 2007		Interim 2008			¥mn	
	Amount	Distrib. (%)	Amount	Distrib. (%)	YOY (%)	Forecast FY2008 Amount	YOY (%)
